High School Honors Program

Each year, Summerfield Schools hosts an Honors Program to acknowledge the accomplishments of many of its students. This is not only a night dedicated to the students, but also to the parents.

We honor the parents who have encouraged their children to do their best. Without their encouragement, support, and understanding, many of these students would not be in attendance at this special program. They give their children the courage and strength to reach for and attain their goals.

This year’s program was on May 2, 2019. Mrs. Emily Hamilton, Summerfield Board Vice President, was the speaker for the event. Mrs. Hamilton was a 1998 Summerfield graduate. She went on to The University of Toledo and received her Bachelor of Business Administration degree in marketing and management in 2002. In 2008, she received her Master of Business Administration degree from Eastern Michigan University. Mrs. Hamilton is employed by the University of Michigan. Since 2018, she has worked in the University of Michigan Transportation Research Institute. Her previous position at U of M was in the Department of Surgery. Mrs. Hamilton is married to Jim and they have two boys, Derrick and Blake, who both attend Summerfield Elementary School.

Summerfield Students Participate in Amateur Athletic Union Track and Field

Four Summerfield students participated in Amateur Athletic Union (AAU) Track and Field this past summer and made it through districts and regionals to participate at the AAU Junior Olympic Games at the famous Drake University Stadium in Des Moines, Iowa.

Eighth graders, Dakota Kohn, Bryce Soule, Evan Suydam and Brandon Thompson, competed against elite athletes all over the nation.

“The Games featured a total of 10,040 athletes and 777 teams at Drake University, the largest it’s ever had at the site. There were approximately 230 officials and volunteers represented by 28 states, plus Jamaica and St. Thomas. There were also eight Olympians in Iowa during the Games,” said Charles Oliver, AAU Track and Field National Chair.

The games only took the top eight of each event to qualify as an All American National Junior Olympian. Promising Thompson broke the growth plate in his hip while competing and Soule stepped up to replace him on the 800 meter relay team. Soule has never trained for this event and helped lead the relay team to 8th place in the nation along with their teammate, Jake Eagling from Adrian.

Make a Difference—Be the Response!

Monroe County, MI—Public health emergencies can occur at any time of the year. If you want to make a difference in the community during public health emergencies or special events, the Monroe County Medical Reserve Corps (MRC), under the direction of the Monroe County Health Department (MCHD), is looking for you! Volunteers are needed to fill both health professional and non-medical support roles that may be needed in a public health emergency. Health professionals (i.e., nurses, physicians, physical therapists, dentists, paramedics, etc.) and non-professionals are all encouraged to volunteer. For more information on the Monroe County MRC unit, please visit sss.co.monroe.mi.us/publichealthMRC.

An orientation session for those interested in becoming Monroe County MRC volunteers will be held on Tuesday, May 21 from 10 a.m.-11 a.m.

New member orientations are hosted on a quarterly basis. Any adult wishing to volunteer, but unable to attend the orientation, may call 734-240-7562 to schedule an individual orientation.

Orientations will be held in the Monroe County Health Department, 2353 S. Custer Rd., Monroe. Each orientation session provides an overview of the Medical Reserve Corps program, volunteer requirements and trainings, and the role of the MRC in Public Health. Interested individuals are required to attend only one orientations session. If you previously attended an MRC orientations session, you do not need to attend again.

Please contact the Monroe County Emergency Preparedness Planner, Carolyn Gardetto, at 734-240-78622 or MRC@monroemi.org if you are planning to attend, prefer to schedule an individual orientation or would like more information about the program.

In many schools, a culture of silence is reinforced among students who will not report safety concerns to trusted adults because it is viewed as snitching, or they’re afraid of rejection, retaliation, and stigmatization. Research indicates that in 81% of violent incidents in U.S. schools, someone other than the attacker had knowledge of the attacker’s plan but failed to report it. That is why the Attorney General’s Office has partnered with several groups across the state to create the student safety initiative known as OK2SAY.

OK2SAY is a confidential reporting system specifically designed to help students or anyone report potential harm or criminal activity directed at school students, school employees, and schools. Anyone that knows about a student safety threat can submit a tip to OK2SAY program operators by phone, text message, email, mobile app, or via the OK2SAY website: http://www.michigan.gov/ok2say/.
